Student/Staff Liaison Committee

The main objectives of the Student/Staff Liaison Committees are:

- to review the undergraduate programs contributed by the Division, and
- to contribute to the continual quality improvement of the programs contributed by the Division.

These will be achieved by:

- discussing the relevance of the curriculum,
- acting as a forum for suggestions for modification and improvement to programs and the learning environment,
- highlighting and sharing examples of good practice,
- monitoring workload of students,
- considering and seeking to resolve academic problems which are of concern to students, and
- making recommendations to other committees and to managers on matters requiring action that the Committee cannot resolve directly

The Student/Staff Liaison Committees are chaired by the Head of Division with representatives from Program Leaders and/or Course Advisors.
